## Kathy Andersen Administrator

The Imperial Manor Parkview Heights Life Enhancement Fund has become a reality! We are now able to accept tax free donations. The fund has grown to over \$1500.00. Our goal for the fence is \$15,000. I am so excited to have this fund become a reality. Donations can be sent to the Manor. The services provided here touch most of us at some time in our lives either by our own need or a family member's need. It is a comfort to both families and caregivers to know they are providing the best care possible. I look forward to seeing this fund grow and the life enhancement it will provide.

I would like to take just a few lines in this newsletter to say how grateful I am to the staff at Imperial Manor Parkview Heights. Balancing resident needs with government regulation is a taxing responsibility. It is not difficult to become so into regulation the residents real needs of security and small pleasures are forgotten. All of the department heads here do an exemplary job of caring for “our” residents and their families as well as caring for the staff members who are on the front lines cooking, cleaning, repairing, and supplying personal cares. Imperial can be proud of this facility. While not perfect there is no one here I don't trust to provide resident centered care. Thank you to each of you who come to work each day and assist in making this a caring place.

# IMPERIAL MANOR NEWS LETTER

Happy  
Birthday
