

Peggy Murillo & Susan Myers The Activity Department

April was wonderful. We did many things such as coloring Easter eggs, Birthday celebrations, a few different food activities, we passed out Easter baskets, music W/ Donna Lou-Lous Plus One.

Our Friday potluck that month was a Little Piece of Italy, We had two different Italian dishes plus Italian themed desserts. It was a great month.

May went very well. We all enjoyed our Mother's Day celebration, there was a great turn out and our mothers had a great time. The month of May brought more Birthday parties. May was also Nursing Home appreciation, we started that week off with a balloon lift off, the Mayer was here to help us kick that week off. On another note we did have to say good bye to Dr. C but like they say when one door closes another one opens which in this case our door opened to our very own Paulette Shook, which is a wonderful piano player. May's pot luck was the beginning of our grilling days, we had hamburgers and hot dogs with birthday cake as it was also a birthday.

June was a nice change we have been able to get outside a bit more. A few of us have been out enjoying the advantages of the season and planted some flowers and also got some vegetables going so that we might be able to enjoy them a little later in the year. We have also been enjoying some ice cream activities like root beer floats, ice cream sun-days, and just some different flavors of ice cream. Our picnic this month was out side so we could really enjoy the weather. Our Fathers day party was very nice those who attended seemed to enjoy themselves.

If You have any questions or suggestions please feel free to contact myself (Peggy Murillo) or Susan Myers.

Billie Hayes and the entire Environmental Services staff

The scoop from Environmental Services,

Summer is here and we are busy with yard work. We have finished most of our big remodel projects. We continue with our painting rooms, I think that will last a long time.

We are working with the city council on replacing the rest of the original windows that were put in during construction. Once all the details are ironed out we hope to be spending a lot of time installing them.

When you walk down the halls you may see some new faces. Iona Kurth has joined our housekeeping staff. We have 2 high school girls helping us in the laundry on Saturdays and filling in during vacations. They are Sabrina Hayes and Emily Johnson. We are very happy to have these 3 join our department.

As always if we can be of assistance please let us
