We have some new faces in the Nursing Department. Alicia Hendricks and Vicki Kuenning have joined the staff as nursing assistants and we have Vannesa Schilke back this summer on her college brake.

I would like to give you some information about an issue that has caused some concern recently. Whenever one of our elders has a change in their medical condition, it is the practice of the Manor that someone calls the responsible party and informs them of the change. It is also common for the person calling to ask the responsible party if they want the elder seen by the doctor. You may think that this is a strange question to be asking. The reason for this question is asked is that not all family members want that step taken. They would rather their elder stay at the Manor and be kept comfortable. Either decision is an appropriate one and the staff of the Manor will support whatever decision is made.
