SUE IREY, DIRECTOR OF NURSING

The nursing department has been fortunate to add several new staff members. We welcome back Monta Rae Graves who is a registered nurse and former employee. 3 nursing assistants have also joined our team, Peggy Smith, Guadeloupe Ramos, and Miranda Knobbe. All three of these people completed their nursing assistant training through the courses offered here at the Manor.

With this time of cold and flu season we would remind all visitors to the facility that there are bottles of hand sanitizer at each nurses station for people to use on their hands while here visiting us. Although we love to have visitors come to our facility, we must remember that our residents are very vulnerable to infection so if you are ill, please refrain from visiting until you are back on the road to recovery.

We all enjoyed the festive atmosphere of the facility over the holidays. Our holiday meal and the resident Christmas party were fun events for not only the residents and their families, but for all our staff as well.
