SUE IREY, DIRECTOR OF NURSING

We are all looking forward to spring. When the weather gets nice the residents enjoy taking rides outside and sitting out in front to soak up the sunshine.

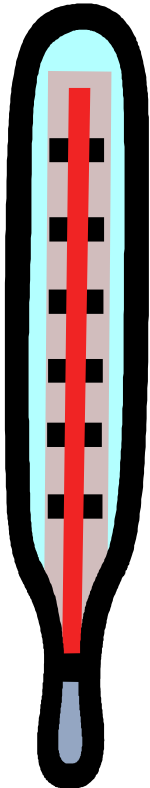

We have several new faces in the nursing department. Cindy Gates, LPN has returned to the Manor full time. We also have the following staff as nursing assistants; Maui Brogdon, Abby Murillo, Brittnae Maris, and Angie Murillo. It is exciting for us to be able to have more of our own staff in the facility.

In February, we changed the brand of incontinence products and creams that we use. Our goal for this transaction is increased comfort for the residents and a decrease in skin problems associated with incontinence. So far we are seeing positive results.

As always, I would encourage anyone to contact me if you have any questions or concerns regarding the care provided to your family member or loved one.

Sue IreY
