**IMPERIAL MANOR
NEWS LETTER**

Kathy Andersen—Administrator

I can not seem to write anything for this news letter that pleases me! I was up to two and a half paragraphs once, then scraped the whole dissertation. Peggy has been waiting on me since before Christmas and quite patiently. It seems there should be something witty or profound from the administrator's desk but-----.

We continue to make this the second best place to home. There are many projects that we dream about but have yet to complete. The "Life Enhancement Fund" became a reality this year as we are now a subaccount of the Imperial Community Foundation. The fund balance is over \$4,000 now. The fence project was estimated at \$15,000. That has not dampened our will to reach that goal and then move on to the next. The community support for our projects has been great.

I would encourage anyone who has not been to the Manor or Parkview Heights to stop in. Things are not the same. We encourage all residents to not just move in but bring along what makes them feel at home. That includes lots of visits from friends and family. Drop in any time. There is always coffee on and usually a cookie!

We all agree that our attitude returns to us like an echo. The secret is to not let it bounce back!
