SUE IREY, DIRECTOR OF NURSING

Hope everyone had a wonderful holiday season. We would like to welcome Lesley Pribbeno and Denise Sperl as nurse aides to the nursing department.

We have had a mild flu season at the Manor so far this year, but it is not over yet. Until recently the H1N1 or swine flu vaccine has not been available to us. We were notified by Southwest Public Health department that they have the vaccine that can be issued to us. We will be ordering enough to offer it to the residents and employees. If you are interested in having your family member who resides at the Manor receive the vaccine, please contact me or Lee Jensen at 882-5333. We continue to encourage you to visit as often as you can unless you have any symptoms of the flu. If so, please stay home until you are well.
